Application No. 09/319,093

ORDER RETURNING UNDOCKETED APPEAL TO EXAMINER

This application was received electronically at the Board of Patent Appeals and Interferences on August 12, 2005. A review of the application has revealed that the application is not ready for docketing as an appeal. Accordingly, the application is herewith being electronically returned to the examiner. The matters requiring attention prior to docketing are identified below:

Appellant filed an Appeal Brief on March 14, 2005. However, the brief appears to have been filed under 37 CFR § 1.192 as evidenced by heading "7. Grouping of Claims" on page 5 of the brief. Likewise, the Examiner's Answer mailed May 12, 2005, also seems to follow the 37 CFR § 1.192(c) format. However, 37 CFR § 1.192 was abolished on September 13, 2004, and replaced by 37 CFR § 41.37 and as such the brief and the answer should have been filed and answered under 37 CFR § 41.37.

37 CFR § 41.37 states:

(c)(1) The brief will contain the following items under appropriate headings and in the order indicated in paragraphs (c)(1)(I) through (c)(1)(x) of this section, except that a brief filed by an appellant who is not represented by a registered practitioner need only substantially comply with paragraphs (c)(1)(I) through (c)(1)(iv) and (c)(1)(vii) through (c)(1)(x) of this section:

(i) *Real party in interest.* A statement identifying by name the real party in interest.

(ii) *Related appeals and interferences.* A statement identifying by application, patent, appeal or interference number all other prior and pending appeals, interferences or judicial proceedings known to appellant, the appellant's legal representative, or assignee which may be related to, directly affect or be directly affected by or have a bearing on the Board's decision in the pending appeal. Copies of any decisions rendered by a court or the Board in any proceeding identified under this paragraph must be included in an appendix as required by paragraph (c)(1)(x) of this section.

(iii) *Status of claims.* A statement of the status of all the claims in the proceeding (e.g., rejected, allowed or confirmed, withdrawn, objected to, canceled) and an identification of those claims that are being appealed.

(iv) *Status of amendments.* A statement of the status of any amendment filed subsequent to final rejection.

(v) *Summary of claimed subject matter.* A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

(vi) *Grounds of rejection to be reviewed on appeal.* A concise statement of each ground of rejection presented for review.

(vii) *Argument.* The contentions of appellant with respect to each ground of rejection presented for review in paragraph (c)(1)(vi) of this section, and the basis therefor, with citations of the statutes, regulations, authorities, and parts of the record relied on. Any arguments or authorities not included in the brief or a reply brief filed pursuant to § 41.41 will be refused consideration by the Board, unless good cause is shown. Each ground of rejection must be treated under a separate heading. For each ground of rejection applying to two or more claims, the claims may be argued separately or as a group. When multiple claims subject to the same ground of rejection are argued as a group by appellant, the Board may select a single claim from the group of claims that are argued together to decide the appeal with respect to the group of claims as to the ground of rejection on the basis of the selected claim alone. Notwithstanding any other provision of this paragraph, the failure of appellant to separately argue claims which appellant has grouped together shall constitute a waiver of any argument that the Board must consider the patentability of any grouped claim separately. Any claim argued separately should be placed under a subheading identifying the claim by number. Claims argued as a group should be placed under a subheading identifying the claims by number. A statement which merely points out what a claim recites will not be considered an argument for separate patentability of the claim.

(viii) *Claims appendix.* An appendix containing a copy of the claims involved in the appeal.

(ix) *Evidence appendix.* An appendix containing copies of any evidence submitted pursuant to §§ 1.130, 1.131, or 1.132 of this title or of any other evidence entered by the examiner and relied upon by appellant in the appeal, along with a statement setting forth where in the record that evidence was entered in the record by the examiner. Reference to unentered evidence is not permitted in the brief. See § 41.33 for treatment of evidence submitted after appeal. This appendix may also include copies of the evidence relied upon by the examiner as to grounds of rejection to be reviewed on appeal.

(x) *Related proceedings appendix.* An appendix containing copies of decisions rendered by a court or the Board in any proceeding identified pursuant to paragraph (c)(1)(ii) of this section.

Specific examples of discrepancies in the brief in the instant application are missing headings (v) Summary of claimed subject matter, (ix) Evidence Appendix and (x) Related Proceedings Appendix. Also, the headings Summary of Invention and Grouping of Claims in the present brief are no longer included under the new rules. A substitute brief that is in compliance with § 41.37(c) is required. For more information, see the United States Patent and Trademark website www.uspto.gov, and, in particular, the web page entitled "More Information on the Rules of Practice Before the Board of Patent Appeals and Interferences, Final Rule" located at the following URL: www.uspto.gov/web/offices/dcom/bpai/fr2004/moreinfo.html

Additionally, a revised examiner's answer that corresponds with the headings as set forth in the new rules under § 41.37 is required. For the required content in an examiner's answer under the new rules, the examiner is directed to the Manual Of Patent Examining Procedure (MPEP) § 1207.02(A) (8th ed., Rev. 3, August 2005).

Accordingly, it is

ORDERED that the application is returned to the Examiner:

1) to hold the Appeal Brief filed March 14, 2005, defective and notification to appellant to file a substitute Appeal Brief in compliance with the new rules as set forth under 37 CFR § 41.37;

Application No. 09/319,093

2) for consideration of the substitute Appeal Brief, to vacate the Examiner's Answer mailed May 12, 2005, and issue a revised Examiner's Answer that complies with the new rules under § 41.37;

3) for the examiner to sign and date the IDS filed January 12, 2000, and to mail a copy of the corrected IDS to appellant, and

4) for such further action as may be appropriate.
